

To whom it may concern:

Hanna Tomas has been a student of mine at Midsommarkransens gymnasium for almost three years at the Ekonomiprogram where she has studied classes in law and social science, from the year 2021 and graduating in 2024. During these years, I have nothing but praise and good things to say about Hanna Tomas as an excellent, hardworking student.

She has always shown great ambition and has performed at a high level with a hunger for more knowledge. With a curious mindset and a high work ethic she has achieved great results throughout the courses but also showed great enthusiasm combining her studies with the elite sports education program at our school.

Her dedication to both schoolwork and her elite sports education has been flawless and remarkable.

I can therefore highly recommend Hanna Tomas as a student for higher education.

Sincerely,

Mathias Liljhammar
Teacher of law and social science.
Midsommarkransens gymnasium
