## Letter of Recommendation

We have had the pleasure to have Alice Hell Johansson as our student for three years.

She was studying the Economic Program with good results.

Alice was a member of our soccer team and during her three years of training with our team she has developed both her physical capacity and her soccer capacity. She plays at the wingposition and has good skills with her's feet and are quick with the ball.

She has shown a good interest for sports and we can gladly recommend her to your soccerteam.
