To whom it may concern,

I am pleased to submit this letter of recommendation for my student Kerstin Rudolfsson, who is applying to your college. As her chemistry teacher and mentor, I found her to be a reliable and responsible student and a kind and caring classmate.

At our school, you combine academic work with practice and competition in a sport at a high level. This requires a lot of energy and focus, something Kerstin is happy to put into both her studies and sport. She always shows up well prepared and in time for class, hands in her work in time for deadlines, and often walks the extra mile. For instance, she stayed late at school not only once to participate in extra activities in chemistry and math. She really puts in the extra work.

Kerstin is also a truly kind person. She is polite and caring towards her teachers and peers. She is a positive, helpful, and caring person. Her eagerness rubs off on others, so she is a positive force in the classroom.

With the attributes Kerstin possesses, I am confident any college would be happy to have her. We have benefitted from her attending our school, and I am glad to have her as a student in my class. Therefore, I can strongly recommend her, and I believe your faculty would benefit if you would choose to accept her as a student. You are welcome to contact me if have any questions.

yours truly
