

Letter of recommendation

Skellefteå, Sweden 10th of May 2023

My Name is Jonas Sjunnesson and teach math and physics in Baldergymnasiet, an upper secondary school in Skellefteå, Sweden. I have been working there since 1999.

For two years i have had the privilege to teach the student Vega Kågström. During these two years I have been teaching Vega seven lessons a week. This has given me a lot of time to get to know Vega, both as a person as well as student.

Vega has during these years been a very engaged student who has performed at high level without exceptions. In a great way she has combined her sport and all training in the free time with a serious attitude to her studies. As a person Vega is easy to deal with and she has a good ability to cooperate with here fellow student as well as her teachers. Vega is a positive person to whom nothing is impossible. To have Vega cooperating in a group is therefore a benefit to her fellow students.

She combines a positive attitude, social skills and high result. I therefore strongly recommend Vega as a scholarship student and i am sure that she will make positive impression and perform well in whatever new environment she will come to.

Jonas Sjunnesson

Teacher in Math and Physics at Baldergymnasiet Skellefteå, Sweden.
