

Polhemsgymnasiet

Letter of recommendation

To whom it may concern,

19 september 2023

During the past two years I have been Lovisa's teacher in Mathematics and Physics at Polhemsgymnasiet, Sweden. Lovisa is a very committed student with high scores. She is one of the school's more ambitious students.

As a person, Lovisa adapts easily to new social contexts and has a winning personality. She is a good friend and has no problems collaborating with others. I foresee that she would have not have any difficulties adjusting to the American culture.

I strongly recommend Lovisa as a scholarship student. She will be able to succeed in higher education. I whole-heartedly recommend her to studies abroad.

Liliann Lisbetdotter

Teacher in Mathematics and Physics

at Polhemsgymnasiet, Sweden
